Dear Mr. Casey,

Now that action on National Intelligence Estimate 11-3-8/81 is complete, I take this opportunity to express, on behalf of the Marine Corps, our appreciation for the superb effort and assistance provided by your staff.

Although I recognize that contributions were made by many others, I particularly commend Dr. Lawrence K. Gershwin,

Their ability to explain the essence as well as their mastery of the details of this complex estimate have proved to be an immeasurable benefit. Moreover, your staff improved both the substance of the estimate and the compromise language through their objective and thoughtful analysis. This is the hallmark of professionalism.

Again, our appreciation for the exemplary support we received during these deliberations on what must be considered to be among the most significant national estimates produced by the Intelligence Community.

Sincerely

H. T. HAGAMAN

Brigadier General, U.S. Marine Corps Director of Intelligence

Mr. William J. Casey
